

The IEP Dance: Learning the Steps

The IEP process is like an intricate dance; once you learn all the steps, it is easier to put it all together into a smooth, flowing routine. This training will provide an intensive look at all the components that go into the development of the Individualized Education Program (IEP). IEPs are plans for children who have special educational needs. This is an excellent training for parents of students on IEPs and teachers. We will be discussing the IEP process and how to work together as team.
