Come join us as we create one page person centered descriptions with a scrapbooking flair. These sessions have been developed so that while your child is in class, you can spend a couple of hours developing a decorative one page positive description of your child. These descriptions can influence IEP's, be used to share information with your childcare or others that support your son or daughter. Parents are encouraged to bring photo's of their child that will be used in this project.

Coffee and treats will be provided. Child care stipends are available.
Spanish interpretation available.

Registration is required as space is limited. Please contact Christy Reese at (503) 708-3986 or [Christy@factoreogn.org](mailto:Christy@factoregon.org) to register or with any questions.
